MEMORANDUM FOR: Contracting Officer

SUBJECT : Amendment No. 10, Contract No. A-101 - Ramo-Wooldridge

25X1A

25X1A 1. As you will recall, during the latter part of March 1957 when subject amendment was in process, there was a considerable amount of urgency to release the document to the contractor in order that work on the end item would begin. On the basis of informal information received from [] that funds were available in the amount of [] to cover the [] portion of the amendment and upon the assurance that the money would be transferred promptly, I certified the amendment as to availability of funds.

25X1A

2. Constant discussions have been held with respect to causing these monies to be furnished in order that the certification to you could become valid. At this writing we have a commitment from the Communications Office stating that they are contributing [] to the process of Amendment No. 10. We have yet to receive any formal advice from PP/AMD with respect to the remaining []

25X1A

25X1A

3. In view of the above facts, it is kindly requested that you notify Ramo-Wooldridge to dispense with the work on so much of Amendment No. 10 as is applicable to the [] until such time as the money has been formally made available. In addition, I strongly urge that you take termination action on this portion of Amendment No. 10 if the monies have not been made available within the next five working days, as by this time the PP/AMD personnel will have had roughly sixty days within which to provide the funds.
